

SURVIVAL OF THE FITTEST

Small-and-medium businesses (SMBs) today, more than ever before, have to fight for their survival. To survive, grow, and prosper, SMBs must safely maneuver their environment and embrace innovation. So, how can your business avoid becoming a victim of outdated technology and lost productivity? By working with IT Solutions by Design, Inc. (ITSBD)

At ITSBD, our goal is to help businesses grow and prosper. We help you navigate the changing tides of technology innovation to learn about and implement enterprise-class solutions that better position your business to compete and prosper.

We understand the business and IT challenges you face in growing your company in a competitive global economy. You need best-in-class products, solutions, and services that can help your business be flexible and resilient. Why not let our results-oriented solutions approach guide you through the process of acquiring products and services to align your IT infrastructure with your business goals? If your business needs managed services, remote monitoring, content management, new applications, or servers and storage, ITSBD provides exceptional service, reliable implementations, and on-going support to ensure your company can adapt to and take advantage of the next wave of innovation. Let ITSBD help you implement leading edge technologies that keep you competitive.

UNIQUE SOLUTIONS FOR
SMALL AND MEDIUM BUSINESSES

THE ITSBD PROMISE

IT Solutions by Design, Inc. (ITSBD) is an Information Technology Consulting, Sales, and Services Company. Our mission is to help SMBs evaluate and implement technologies that improve operating efficiency and enable growth. We understand your need to drive down costs while embracing technology changes to maintain a competitive advantage. In most cases, this translates to streamlining business operations and making intelligent decisions about technology purchases. At ITSBD, we're focused on helping you achieve both goals.

Through our relationships with the industry's leading manufacturers, ITSBD helps your IT organization become a trusted service provider to your business. We help IT investigate, evaluate and implement unique, best-in-class enterprise-level technologies at costs that are sensitive to your budget. Our solutions enable businesses to reduce costs and compete more effectively. Since growing and maintaining your customer base means more revenue to expand your business, we're confident that our solutions will improve your company's operational efficiencies. Our team has over 50 years of experience and proven results. Our consultants are experienced practitioners; so, you can count on ITSBD to design, architect, and implement IT solutions that leverage your company's existing infrastructure investments and support your long-term growth objectives.

Give us a call or send us an e-mail to schedule an assessment of your IT environment.

THE ITSBD SERVICES

ITSBD offers our clients two categories of services: Managed Services and Professional Services. Each category is intended to satisfy your company's short-term and/or long-term needs.

Managed Services:

This category of services allows ITSBD to augment your IT staff by lightening the workload on a short-term or long-term basis. ITSBD offers five services under this category:

- Remote Backup Service (RBS)
- Virtual Business Continuity (VBC)
- Remote Replication Service (RRS)
- Secure Archiving for the Enterprise (SAFE)
- Remote Systems and Network Management

Professional Services:

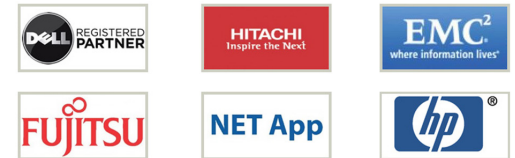

This category of services provides the industry knowledgeable expertise needed to assess your company's current IT infrastructure. We work with your management and technical staff to identify, document and highlight the benefits of upgrading or replacing your existing architecture. The following items highlight the services under this category:

- Data Migrations
- Storage Assessments
- File & Content Services
- SAN Health Assessments
- Business Continuity Planning
- SAN Design & Implementation
- Storage Consolidation/Virtualization
- Tiered Storage
- Storage Management
- Server Virtualization Design & Implementation
- Technical Documentation
- eLearning and Training Materials

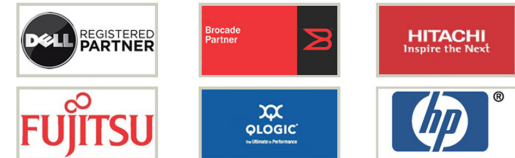

THE ITSBD PARTNERS

ITSBD carefully selects and cultivates relationships with industry technology leaders who offer superior products and dependable service to our clients. We bring to your business a full complement of knowledgeable expertise to design, deliver, and build innovative solutions. Our current technology relationships offer best-in-class products in these categories: Storage, Server and Infrastructure, and Applications.
